

Quiet Cube Table-Top Interpreter Booth (Made in the USA!!)

The **Quiet Cube table-top booth** is a lightweight, portable solution designed for one or two interpreters. Built with three-way sound isolation and an open-back design, it effectively reduces noise from the top and sides while maintaining easy access and ventilation from the rear.

Key Features

- **Fast Assembly:** Can be set up in under 5 minutes—no tools required.
- **Compact and Portable:** Weighs only 50 lbs and comes with a durable soft carrying case.
- **Three-Way Sound Isolation:** Provides effective sound control for professional interpreting environments.
- **Flexible Fit:** Designed to work with any rectangular table or surface at least 48" long and 24" wide.

Applications

- **Independent & Private Events:** Ideal for organizations seeking a low-cost, easy-to-assemble interpreting booth.
- **Conference and Event Venues:** Provides reliable interpreter isolation without permanent installation.
- **Portable Solutions:** Perfect for on-the-go professionals who need quick setup and breakdown.

Specifications

- **Capacity:** Accommodates one or two interpreters.
- **Dimensions:** Fits on rectangular banquet tables or work surfaces (min. 48" x 24").
- **Clearance:** Recommended 24 inches of space around the booth for optimal setup.
- **Weight:** 50 lbs., easy to transport.

Made in the USA

Every Quiet Cube table-top interpreter booth is proudly manufactured in Minnesota, ensuring durable craftsmanship and reliable quality.
