MADE IN USA

The Fluent **Table-top booth** is a lightweight, portable solution designed for one or two interpreters. Built with three-way sound isolation and an open-back design, it effectively reduces noise from the top and sides while maintaining easy access and ventilation from the rear.

Key Features

- **Fast Assembly**: Can be set up in under 5 minutes—no tools required.
- **Compact and Portable**: Weighs only 60 lbs. and comes with a durable soft carrying case.
- **Three-Way Sound Isolation**: Provides effective sound control for professional interpreting.
- **Flexible Fit**: Designed to work with any rectangular table or surface at least 50" long and 25" wide.
- **Custom Logos**: We can put your logo on the booth panels.

Applications

- **Meetings & Presentations:** Ideal for interpreters seeking an easy-to-assemble interpreting booth.
- **Conferences and Events**: Provides reliable interpreter isolation without permanent installation.
- **Portable Solutions**: Perfect for on-the-go professionals who need quick setup and breakdown.

Specifications

- **Capacity**: Accommodates one or two interpreters.
- **Dimensions**: Fits on rectangular banquet tables or work surfaces (min. 50" x 25").
- **Sound Panels:** Environmentally Friendly PET panels reduce sound, durable and easy to clean.
- **Weight**: 60 lbs., easy to transport.

Made in the USA
